**WroMigrant is a city information point for migrants and refugees run by the Wrocław Center for Social Development**

We provide information support to both people who live in Wrocław and new city inhabitants.

We want them to be familiar with everyday and official matters, to be more aware of their rights and obligations and to become fully active inhabitants as soon as possible.

**We provide both stationary and remote consultations (by phone and mobile applications).**

**We conduct trainings, information meetings, quizzes and education games.**

**We prepare information materials (e.g. integration maps of Wrocław for new city inhabitants).**

# The consultants of WroMigrant provide information about:

---

legalization of stay and work in the Republic of Poland (e.g. legalization of stay for students)

education system and free of charge Polish language courses

procedures of registration of stay, exchange of the driving license and other administrative services.

healthcare system

offers of social assistance and support for people with disabilities

referrals to additional support in crisis situations (e.g. people in the crisis of homelessness, free psychological support, domestic violence, human trafficking)
